Third Party Quality Mo	Annexure 3 onitoring Report of BLC projects under PMAY
Name of TPQM Agency	Innovative CADD Centre Indore
	102,Arpan Apartment 35, Saket Nagar, Indore
Date of Visit	17/12/2018
Current Visit No.	1 st
Date of Previous visit	Nil

1	Name of the State /UT:	Uttar Prad	esh			
2	Name of the City:	Kushinagai	r			
3	Name of Project:	Constructi		1104 27/02/2	DUs under	PMAY
4	Project Code:	09007541		27/02/2	010	
5	Implementing Agency/ ULB	Kaptangan				
6	Location of the Project	All Wards	of ULB			
7	Type of Project : (i) BLC (New Construction), (ii)BLC (Enhancement)	BLC (New		ion)		
8	No. of Houses in the project	1104				
9	Date of Approval by SLSMC	26/02/2018				
10	Approved Project Cost (Rs. Lakhs):	Central share	State share	ULB/ IA share	Beneficiary share	Total
10		(in Lakhs)	(in Lakhs)	(in Lakhs)	(in Lakhs)	(in Lakhs)
11	Date of sanction of 1 _{st} installment of Central Assistance by CSMC	1656.0 27-02-	1104.0 2018	0.0	579.8	3339.8
12	Duration of the project	1 Yrs				
13	Date of Commencement		Scheduled		Ac	tual
10	Date of Commencement	2	7-02-2018			-2018
14	Date of Completion		Scheduled		Expe	ected
			7-02-2019		14-03	-2019
15	Inspection undertaken by (Name) (with contact detail) :	Shobhit Sha			99267	84529
16	Name of State representative present	Surbhi Cho			91110	08987
17	Name of ULB representative present	Not Present				
18	Name of Community representative present during visit	Rishikesh S List Enclose		iotos	9839306640	
19	Whether list of Beneficiaries finalized ?	Yes				
20	If finalised, whether uploaded in PMAY MIS?	Yes				
21	State any deviation from sanctioned DPR in terms of number of houses or size or location or Layout	No				
22	Any other comment	No				

B.	QUALITY ASSURANCE IN THE PROJECT	
1	Whether ULB/ State have organized workshop/ training programs to educate the beneficiaries about quality, construction methods, adherence to disaster resistant technologies etc.	Yes
2	Whether testing facilities to check quality of material is available?	Testing facilities are not available at sites, however it is advisable that in the premises the mouncipal council testing facilities show be developed for the beneficiaries
3	Whether regular tests of materials and construction products tests of materials are being done from accredited labs also?	No, It has been directed to establish the material testing lab.
4	(i) Whether the structural Designs are approved / Proof checked by competent Authority	NA
	(ii) Name of the approving authority for structural design.	NA
	(iii) Whether the statuary certificate for disaster resistance design and compliance of codal provision isendorsed by the structural designer on the structural drawings fit for execution, Specially in case of multistoried construction.	Not Required
	(iv) The work is being executed as per the approved drawings fit for execution.	NO
5	Whether the Inspection Registers, Site order book and Quality control Test registers are maintained and endorsed by the Engineer–in-charge?	Not availeble
6	Whether cement, steel, aggregates etc. being used in the work, got tested before use?	No building materials are being tested before use.
7	Whether manufacturer test certificate for cement, steel, pipes etc. have been obtained with supply and records are being maintained?	NA
8	Whether Cement is free from lumps and is stacked properly to prevent contact with moisture?	Yes
9	Whether soil investigations of the site proper have been done before the structural design and soil parameters have been accounted for in the structural design/drawings? If yes, attach copy of soil investigation report.	No, Soil investigations have been done

Whether centering /shuttering is checked for staging & propping, line & level, dimensions, cleaning etc. and its quality approved before each stage and record maintained. Specific control on RCC work like: mixing by full bag capacity hopper fed mixer, control of slump, placing/compaction with vibrator. (proportioning with boxes not permitted) Whether cement register is maintained and checked at site. Comment on method of stacking. Whether concrete mix is nominal or design mix? (Nominal mix not permitted for quality concrete). What is the Mode of Concrete mixing (batch mix/manual)? In case of manual mixing, whether mixing is by weight or by volume of ingredients? (Volumetric mixing not permitted). Whether Mixer/Vibrator as specified is available at site with adequate means to run them during concreting? Whether Surface of reinforcement is clean and free from rust? Whether potable water is used for construction? Whether proper water / cement ratio has been ensured? NA Whether the concrete being cured adequately as per requirements? Whether bricks are well burnt, of rectangular shape, with sharp edges, free from cracks and of correct size? Whether Whether i) Execution of Depth & width of Foundation is as per drawing/ adequate & bottom levelled ii) Plinth height is as per drawing/ adequate	Party Quality Monitoring-2017
capacity hopper fed mixer, control of slump, placing/compaction with vibrator. (proportioning with boxes not permitted) Whether cement register is maintained and checked at site. Comment on method of stacking. Whether concrete mix is nominal or design mix? (Nominal mix not permitted for quality concrete). Nominature of concrete mixing (batch mix/manual)? In case of manual mixing, whether mixing is by weight or by volume of ingredients? (Volumetric mixing not permitted). Whether Mixer/Vibrator as specified is available at site with adequate means to run them during concreting? Whether Surface of reinforcement is clean and free from rust? Whether potable water is used for construction? Whether proper water / cement ratio has been ensured? NA Whether the concrete being cured adequately as per requirements? Whether bricks are well burnt, of rectangular shape, with sharp edges, free from cracks and of correct size? Whether i) Execution of Depth & width of Foundation is as per drawing/ adequate & bottom levelled ii) Plinth height is as per drawing/ adequate Adequate ii) Plinth height is as per drawing/ adequate	record have been maintained.
site. Comment on method of stacking. Whether concrete mix is nominal or design mix? (Nominal mix not permitted for quality concrete). What is the Mode of Concrete mixing (batch mix/manual)? In case of manual mixing, whether mixing is by weight or by volume of ingredients? (Volumetric mixing not permitted). Whether Mixer/Vibrator as specified is available at site with adequate means to run them during concreting? Whether Surface of reinforcement is clean and free from rust? Whether potable water is used for construction? Whether proper water / cement ratio has been ensured? NA Whether the concrete being cured adequately as per requirements? Whether bricks are well burnt, of rectangular shape, with sharp edges, free from cracks and of correct size? Whether i) Execution of Depth & width of Foundation is as per drawing/ adequate & bottom levelled ii) Plinth height is as per drawing/ adequate Adequate	nnual mixing with hand compaction
(Nominal mix not permitted for quality concrete). Nominal Mix not permitted for quality concrete). What is the Mode of Concrete mixing (batch mix/manual)? In case of manual mixing, whether mixing is by weight or by volume of ingredients? (Volumetric mixing not permitted). Whether Mixer/Vibrator as specified is available at site with adequate means to run them during concreting? Whether Surface of reinforcement is clean and free from rust? Whether potable water is used for construction? Whether proper water / cement ratio has been ensured? NA Whether the concrete being cured adequately as per requirements? Whether bricks are well burnt, of rectangular shape, with sharp edges, free from cracks and of correct size? Whether i) Execution of Depth & width of Foundation is as per drawing/ adequate & bottom levelled ii) Plinth height is as per drawing/ adequate Adequate	cement register have been maintained and work has been carried out on petty chases.
manual)? In case of manual mixing, whether mixing is by weight or by volume of ingredients? (Volumetric mixing not permitted). Whether Mixer/Vibrator as specified is available at site with adequate means to run them during concreting? Whether Surface of reinforcement is clean and free from rust? Whether potable water is used for construction? Whether proper water / cement ratio has been ensured? NA Whether the concrete being cured adequately as per requirements? Whether bricks are well burnt, of rectangular shape, with sharp edges, free from cracks and of correct size? Whether i) Execution of Depth & width of Foundation is as per drawing/ adequate & bottom levelled ii) Plinth height is as per drawing/ adequate Adequaled	minal mix has being used
Whether Surface of reinforcement is clean and free from rust? No Whether potable water is used for construction? Whether proper water / cement ratio has been ensured? Whether the concrete being cured adequately as per requirements? Whether bricks are well burnt, of rectangular shape, with sharp edges, free from cracks and of correct size? Whether Whether Whether Whether Whether bricks are well burnt, of rectangular shape, with sharp edges, free from cracks and of correct size? Whether Wheth	umetric mannual mixing has been used.
rust? Whether potable water is used for construction? Whether proper water / cement ratio has been ensured? Whether the concrete being cured adequately as per requirements? Whether bricks are well burnt, of rectangular shape, with sharp edges, free from cracks and of correct size? Whether i) Execution of Depth & width of Foundation is as per drawing/ adequate & bottom levelled ii) Plinth height is as per drawing/ adequate Adequate Adequate	
Whether proper water / cement ratio has been ensured? NA Whether the concrete being cured adequately as per requirements? Whether bricks are well burnt, of rectangular shape, with sharp edges, free from cracks and of correct size? Whether i) Execution of Depth & width of Foundation is as per drawing/ adequate & bottom levelled ii) Plinth height is as per drawing/ adequate NA YES Adequate Adequate	
Whether the concrete being cured adequately as per requirements? Whether bricks are well burnt, of rectangular shape, with sharp edges, free from cracks and of correct size? Whether i) Execution of Depth & width of Foundation is as per drawing/ adequate & bottom levelled ii) Plinth height is as per drawing/ adequate Adequate	
Whether bricks are well burnt, of rectangular shape, with sharp edges, free from cracks and of correct size? Whether i) Execution of Depth & width of Foundation is as per drawing/ adequate & bottom levelled ii) Plinth height is as per drawing/ adequate YES YES	
sharp edges, free from cracks and of correct size? Whether i) Execution of Depth & width of Foundation is as per drawing/ adequate & bottom levelled ii) Plinth height is as per drawing/ adequate Adequate	
i) Execution of Depth & width of Foundation is as per drawing/ adequate & bottom levelled ii) Plinth height is as per drawing/ adequate Adequate	
drawing/ adequate & bottom levelled ii) Plinth height is as per drawing/ adequate Adequate	
	quate
iii) Horizontal bands (as applicable) have been provided Partial	quate
	ally Provided.
Whether quality has been checked by TPQMA/ State agency? If yes, details there of? YES, good	, ULB staff has been checked. Found
Pradhan Mantri Awas Yojana (Urban) - Housing for All Mission	

Innovative Codd Center

23	Quality of work and workmanship, Comments on	
(i)	RCC work (concrete, Reinforcement detailing, cover to reinforcement). Whether Columns are in plumb (check for verticality)	Cover to Reinforcement is sufficient & the columns are in plumb verticaly.
(ii)	Masonry (Joint details, verticality). Check adequate RCC bands are provided.	Masonary work is good.
(iii)	Shuttering (Type of material-pucca/ katcha, support spacing)	Steel shuttering are mainly used but somewhere wooden shuttering are also used with steel shuttering.
(iv)	Bar bending and stirrups bending , placement and cover to reinforcement bars.	Adequate
(v)	Plastering	Satisfactory
(vi)	Doors and windows	Satisfactory
(vii)	Seepage, if any	Not found
viii)	Cracks, if any	NA
(ix)	Honey combing, if any	Honeycomb are observed that in some place
(x)	Any other	Satisfactory
24	Whether provision has been made for Service lines (Electrical, Water Supply, Sanitation etc.)	Yes
25	Whether floor slope (especially) in bath,WC, kitchen, terrace and balcony etc. are proper?	Yes
26	Whether adequate plinth height (above the general ground level) is provided to the ground floor of the building to avoid possibility of rainwater and reptiles in the building.	Yes
27	Whether dampness/leakages noticed? If yes, state location and probable reasons.	No dampness found
28	Whether remedial measures are undertaken by IA/ ULB to stop Dampness & Leakages if any?	Instruction has been given during visit.
	Whether disaster resistant features have been incorporated?	The construction is being carried by beneficiaries and quality of construction maintained satisfactory.
30	Any other comments	No
31	Report on Overall assessment of quality	Material used should be tested by acrediated lab. To maintain the quality of work close supervision is mandatory.

--------------	----------------	---------------	-----------------

C.	PROGRESS - HOUSING COMPONENTS	r Third Party Quality Mor	
1	Numbers of houses sanctioned in the Project		1104
2	Numbers of houses Completed		34
3	Numbers of houses in progress		668
4	Stages of Progress:		
i)	Foundation level (Nos.)		119
ii)	Plinth level (Nos.)		145
iii)	Lintel level (Nos.)		117
iv)	Roof level (Nos.)		165.
v)	Finishing level (Nos.)		122
5	Numbers of houses not started		402
6	Reason for non-starter of houses, if any	Surrendred	
7	Numbers of houses occupied by the Beneficiaries	0	
8	Reasons for Non-occupation of houses (If any)- specific reasons to be given	Under construction	
		Sanctioned	As per Implementatio
9	Size of Unit (Carpet Area)	Proposed avg. 30 sq.m	Most of the houses are 30 sqm
10	Overall physical progress of Housing (in %)	Approx (28%)	
11	Whether the progress of houses has been ensured through geo-tagged photographs at various construction level?	Yes	
12	Whether DBT of fund to individual beneficiary is ensured in the project?	Yes	
13	Whether the building plan(s) conform to NBC norms?	Yes	
14	Whether authenticated building plans and revisions if any, are available?	Yes	
15	Deviation, if any	No	
16	Any other comment	No	
. C	IVIC INFRASTRUCTURE	1	
1	Whether provision of Civic infrastructure components (i.e. water supply, Sewerage, Drainage, Roads, SWM	Yes	

25	Pradhan Mantri Awas Yojana (Urban) - Housing for All Mission	
2	Whether the Existing/proposed infrastructure components are independent and/or integrated with city level infrastructure?	NA
3	Any other comments	No
E. S	SOCIAL INFRASTRUCTURE	
1	Whether provision of Social Amenities (i.e. School, Anganwadi, Health centre, Community centre, Livelihood centre etc.) has been ensured?	Yes
2	Any other comments	No
F. F	INANCIAL PROGRESS & FUND UTILIZATION (Rs. in Lakhs)
1	Sanctioned fund for entire project.	3339.84
2	Amount of funds received up to date	1104.00
3	Up-to date Expenditure	1104.00
4	Amount of funds Utilized (out of received)	1104.00
5	Amount of Expenditure by ULB	Nil
6	Amount of Expenditure by Beneficiaries	Construction work is being done by beneficiaries
7	Balance funds Expected/due from stakeholders	1104.00
	OST VARIATION and TIME-OVERRUNS	
Cost	variation:	
1	Whether there is cost variation? If yes, what are the reasons?	Not applicable for BLC works
Time	Overruns:	
1	Whether there is time overrun? If yes, what are the reasons?	Not applicable for BLC works
H. R	EMEDIAL MEASURES TO IMPROVE PROGRE	SS AND QUALITY
Unde	ertaken by Implementation agency to improve the:	
1	Physical Progress	28%
2	Financial Progress	Timely payment of installments must be assured to beneficiaries.
3	Quality management	Satisfactory
4	Comments and suggestions of TPQMA on above	Monitoring by ULB/ PMC officials are being done in the project further quality checks frequency may be increased
I. CC	OURT CASES AND LITIGATIONS	
1	(To be specified)	Nil

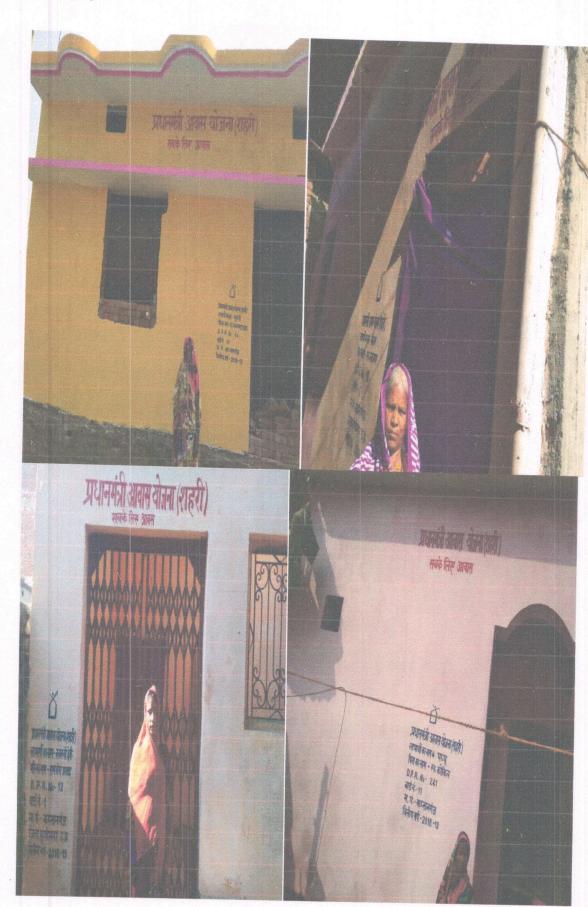

Reference Guide fo	or Third Party Quality Monitoring-2017	
been used	NO	
Physical & Social infrastructure:	Satisfactory	
Infrastructure, if any:	Work in progress	
Any specific observation by the beneficiary	No	
Overall observation on the project (with adequate photographs covering project to a large extent including quality issues as applicable)		
Critical observations	Progress of the project is satisfactory	
2. Action suggested by TPQMA to SLNA and IA	Nil	
Action taken report on previous report:		
i. Observations of TPQMA		
ii Action suggested by TPQMA		
	This was first visit	
Agency)		
iv Whether TPQMA is satisfied with the action taken		
TPQMA's Overview of the Project (in 400-500 words) in		
a separate sheet	The overall project progress is satisfactory and beneficiaries are active, the construction is being carried by beneficiaries themselves and guidance on construction techniques is being provided by PMC. To improve the quality of work regular visit of ULB official	
	Any innovative/ cost effective/ green technology has been used Feedback of beneficiaries regarding provision of Physical & Social infrastructure: Reasons for delay in completion of housing and Infrastructure, if any: Any specific observation by the beneficiary Overall observation on the project (with adequate photographs covering project to a large extent including quality issues as applicable) 1. Critical observations 2. Action suggested by TPQMA to SLNA and IA Action taken report on previous report: i. Observations of TPQMA iii Action suggested by TPQMA iii Action taken by Beneficiaries/ IA (Implementation Agency) iv Whether TPQMA is satisfied with the action taken
