### 1 Project Background

The Ministry of Housing Urban Poverty Alleviation, Government of India has launched Pradhan Mantri Awas Yojana (PMAY) - "Housing for All by 2022" a comprehensive urban housing scheme to achieve the objective that "By the time the Nation completes 75 years of its Independence, every family will have a pucca house"

The scheme seeks to address the housing requirement of urban poor including slum-dwellers and will be implemented through four verticals, giving option to beneficiaries & ULBs. A beneficiary family in this mission will comprise husband, wife, unmarried sons and/or unmarried daughters. The beneficiary family should not own a pucca house either in his/her name or in the name of any member of his/her family in any part of India.

The four verticals of the PMAY-HFA (Urban) as per guidelines are:

- Slum rehabilitation of Slum Dwellers with participation of private developers using land as a resource
- Promotion of Affordable Housing for weaker section through credit linked subsidy
- Affordable Housing in Partnership with Public & Private sectors
- Subsidy for beneficiary-led individual house construction (New + Enhancement)

The Pradhan Mantri Awas Yojana (PMAY) will be implemented as a Centrally Sponsored Scheme except for the component of Credit Linked Subsidy which will be implemented as a Central Sector Scheme. The scheme also prescribes certain mandatory reforms for easing up the urban land market for housing, to make adequate urban land available for affordable housing. The scheme will cover the entire urban region and will be implemented in phased manner.

### Need for Third Party Quality Monitoring (TPQM):

Effective monitoring of ongoing project(s) is a key to successful completion of any project with monitoring of quality being most significant aspect. A State level mechanism for **Third Party Quality Monitoring** of projects sanctioned under PMAY has been evolved with the following objective:

1. Review and monitoring of quality of all PMAY projects implemented by ULBs/ Implementing Agencies.
2. Provide a structured report on the quality of projects under PMAY.

The visits by third party agencies to the project site and to monitor and advise State and Urban Local Bodies/ Implementing Agencies on quality related issues.

On the basis of quality assurance report by such agencies, States and ULBs/IAs should take both preventive and curative measures to ensure that standard quality houses and infrastructure are constructed under the mission.

The independent reports from TPQMA will help to identify the constraints and issues in the

project implementation and enable a corrective action if necessary.

**TPQMA** would enable the following:

- Review of land requirement/ availability, Site preparation & other statutory clearances.
- Review of Project Implementation Plan and procurement process.
- Review of approved quality monitoring plan.
- Review of Safety and Health aspects.
- Examine Convergence with the Central/ Statescheme.
- Beneficiary participation/ satisfaction in the project.
- Report on Quality Assurance. (Indicative formats are at **Annexure-2,2A &3**)
- Remedial measures to improve quality of the project.

PMAY projects are approved by Central Sanctioning & Monitoring Committee at the Centre after Detailed Project Reports (DPRs) prepared by ULBs are approved by State Level Appraisal Committee (SLAC) and State Level Sanctioning and Monitoring Committee (SLSMC). At each stage, there may be suggestions and recommendations and TPQMA would ensure that these points are incorporated in the implementation of the projects. TPQMA would ensure periodic feedback to all key stakeholders. It is, therefore, imperative that each project is covered by TPQM and periodic feedback is given to all stakeholders at ULB/Town/City, State & Central level.

## **2 Scope of Work**

1 This Terms of Reference is to support State Urban Development Agency, Uttar Pradesh in the implementation of Pradhan Mantri Awas Yojana (PMAY) as per the TPQMA guidelines issued by Ministry of Housing Urban Poverty Alleviation, Government of India and to achieve the ultimate objective of providing **Housing For All by 2022**. The sampling should be done through a transparent and well- defined process to cover all the BLC Projects in the city in a holistic way, leading to selection of a representative sample.

The recommended sample size for monitoring BLC houses is 10% of DUs or 50 DUs, whichever is more. In cities where there are multiple ‘BLC projects’ with less than or equal to 500 DUs, the SLNA/TPQMA may consider forming of clusters of around 500 or more DUs which could then be considered as a single unit/project to draw bigger samples of more than 50 DUs which can be covered under one TPQM.
