8. Electrotherm India Ltd.
9. EPC Works
10. Samman Foundation
11. Raaj Automotive
12. Surya Shakti Associates

Attendance sheet is attached here with

Undersigned addressed the Pre-Bid meeting. Prof. K. R. Rajagopal (IIT, Delhi) and Mr. Pravin Singh (M.D., UPICO) has cleared out the queries raised by the prospective bidders which were related to the technical specifications of the E-Rickshaws and there charging/service stations etc.

Present prospective bidders/representatives raised mainly the following queries:

1. No specific specifications and parameters are given for the charging stations, how the company will establish them (Cost, Efficiency etc.)?
Clarification – As per bid document which is clear.
2. Whether OEM Dealers can also bid?
Clarification – As per bid document.
3. Is VAT applicable when the supply is to the Government?
Clarification – Yes, VAT is applicable.

4. Four additional compliance/test certificates have been demanded in point B-3 of the specification of the 4-Seater E Rickshaw mentioned in the bid document which is as follows:

Compliance/Test Certificates for the following Additional Tests to be Carried out for the E – Rickshaw

Sl. No.	Parts/Components/Assemblies/Performance	Test Standards
1	Range	AIS-040
2	Overall Efficiency	AIS-039
3	Gradeability	Procedure as per AIS-003
4	Ground Clearance	IS- 9435

It is noteworthy that provision of e rickshaw has been made under motor vehicle act through notification No. S.O. 2590 (E) & GSR No. 709 (E) by Ministry of Road Transport & Highways, Govt. of India dated 08-10-2014.

For these additional tests it is required to write to the testing agencies and take their consent as these tests are not included in the notifications of Govt. of India, which will take more time and additional fees. Therefore it has been requested that it should be allowed that these tests/certificates may be submitted before delivery so that bid process could be completed in time.

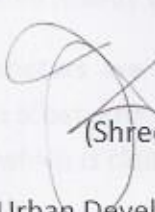

Clarification – SUDA will write to the testing agencies to test. If any change is made, it will be informed on the concerned website www.sudaup.org.
